

10x20 Heritage

Call Toll-Free: (866) 297-3760

This building has been designed in response to the many who have asked for a multi purpose building. It took one year and twelve revisions before this design was finalized. While aesthetically pleasing, it provides extremely versatile space. This design features 5' double doors on the gable end, adequate for a lawn tractor, ATV, and/or firewood storage. With the addition of a workbench and cabinet space, the interior can easily be converted into a potting area or workshop, or even modified for tiny living. An interior door provides easy access and partitioning between the two sides of the building. Contact our client care team to make this design work for you.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.

- Included in the kit:**

Upgrade the Roof Color

Four Season Insulation Package

Plans

Jamaica Cottage Shop, Inc. designed these plans for do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut-out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with basic knowledge of carpentry.
