

# 12x14 Gable

Call Toll-FREE: 1.866.297.3760

The 12x14 Gable is a no frills storage building, strong enough to handle harsh New England weather and every day use. A beefy heavy duty shed with hefty 2x6 full-dimensioned hemlock floor and roof framing, this building features attractive trim details and a generous roof overhang that offers better protection from the elements. Standard with two hinged 2x2 barn sash windows, a pressure treated ramp and a wooden louvered vent, this structure is aesthetically pleasing as well as utilitarian.

With 168 sq./ft. of usable space, the cottage has plenty of room for both his and her needs. When sheltering a heavy tractor take into consideration the floor system, and the door height clearance. It sometimes works best to eliminate the floor or beef up the floor framing by requesting 16" on center joists and 3/4" plywood flooring. The door clearance should allow the height of the roll bar to clear.

- Included in the kit: \*All Fastening Hardware
- \*Step-by-Step Plans

### Specifications:

- Square Footage:** 168 sq/ft
- Overall Dimensions:** 10'6" H x 13'2" W x 15'2"

**Plans \$50.00**

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

**Complete Kit \$6,356**

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. It includes a cut and notched hemlock post and beam frame and pre cut pine siding. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
