

## 5x10 Chicken Coop

Call toll-free: 1.866.297.3760

This little coop was originally designed as an addition to our chicken complex in order to accommodate our ever growing chicken population. The shed roof design made it easy to butt up against the existing chicken coop, constructing a passage from one to the other. The 3x5 enclosed area provides the chickens with a place to bed down, while the 5x7 open area allows them fresh air and contact with their natural surroundings. This coop was constructed without a floor to allow the chickens to access the natural ground. The coop can be moved around in the yard to give the chickens fresh ground to cover. In the colder months, lining the bottom of the coop with hay will keep your fowl friends comfortable.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.

### Specifications:

**Square Footage:** 50 sq ft 64 sq ft interior

**Overall Dimensions:** 5'6" W x 10'6" L x 6' H

**Foundation Recommendation:** 3"-4" Crushed Gravel

**Floor:** 6x6 Pressure Treated Sill Plate  
No Floor System  
3x5 enclosed nesting area  
5x7 open area

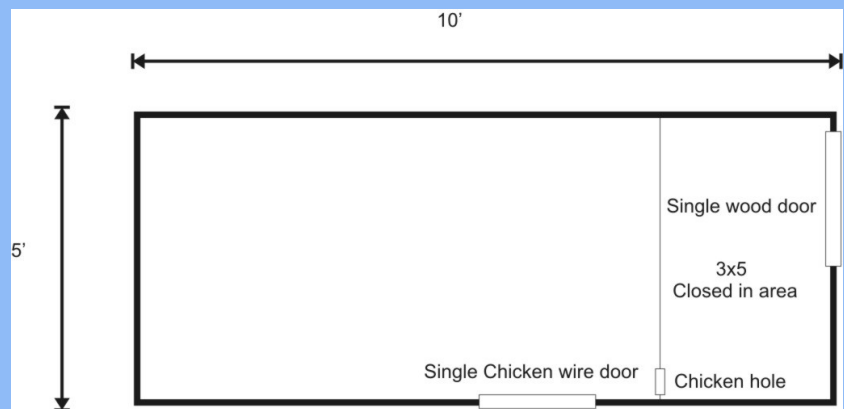

**Walls:** 4x4 Post and Beam wall frame
