

10x10 Run-In Shed Basic Call Toll-Free: (866) 297-3760

The 10x10 Run in shed offers added protection to pastured horses from wind, rain, snow, and summer sun. Picture this attractive run in shed out in your green rolling pasture. The sturdy rugged horse barn is designed for all of your livestock needs with years of heavy use.

Hand made in Vermont, from true 4x4 native rough sawn hemlock and pine lumber, the package includes all fastening hardware, metal roofing and step-by-step plans.

We recommend the building sit on a level 12x12 compacted crushed stone base 4-6 inches deep. Once the building is in place, lay rubber matting on top of the stone and add a bed of wood shavings, straw, or saw dust

- Included with Kit:** *Step-by-Step Plans
* All Fastening Hardware

Plans

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. It includes cut and notched hemlock post and beam frame and pre cut pine siding. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
