

10x12 Gable

Call Toll-Free: (866) 297-3760

The 10x12 Gable is a no frills storage building, strong enough to handle harsh New England weather and every day use. A beefy heavy duty shed with hefty 2x6 full-dimensioned hemlock floor and roof framing, this building features attractive trim details and a generous roof overhang that offers better protection from the elements. Standard with two hinged 2x2 barn sash windows, a pressure treated ramp and a wooden louvered vent, this structure is aesthetically pleasing as well as utilitarian.

With 120 sq./ft. of usable space, the cottage has plenty of room for both his and her needs. When sheltering a heavy tractor take into consideration the floor system, and the door height clearance. It sometimes works best to eliminate the floor or beef up the floor framing by requesting 24" on center joists and 3/4" plywood flooring. The door clearance should allow the height of the roll bar to clear.

Included with Kit: *Step-by-Step Plans
* All Fastening Hardware

Specifications

Square Footage: 120 sq/ft

Overall Dimensions: 10'6" H x 11'2" W x 13'2"L

1x4" corner, door & window trim

Wood Louvered Vent

Shipping Cube: 42"W x 48"H x 144"L

Kit Weight: 3800 lbs

Assembly Time: Two People 24 Hours

Fully Assembled

Fully assembled from native rough sawn lumber here at our manufacturing facility, this design is delivered to your client prepared, truck accessible site in one piece. The building is set and leveled by our delivery crew and ready to use when we leave your site. Due to road restrictions, fully assembled models are available in the northeastern United States only.

Plans

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. It includes cut and notched hemlock post and beam frame and pre cut pine siding. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.

Ask about Additional Options including...
Upgrade Windows to 2x2 Insulated instead of Single Pane
Add a Cedar Flower Box (including liner and supports)
