

12 x 16 Home Office

CallToll-FREE:1.866.297.3760

Originally designed as the sales office for Jamaica Cottage Shop, an insulated version of this little cottage sat on a focal point of the property at the end of the driveway. The upgrade to a fully insulated interior, along with the addition of a wood stove or gas heater makes this a year-round workspace.

Though designed as an office, the quaint front porch and cozy interior make this building an asset to any landscape as a kid's playhouse, pool house, guesthouse, workshop, cabana, artist studio or simply a personal retreat.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability.
