

# 14 x 20 Camping Cabin

This cozy cabin is the perfect solution for your isolated New England property. An enchanting three-room cottage, complete with a bathroom is a wonderful place to relax and escape from the hustle and bustle of everyday life. The kitchen is equipped with a gray water sink and built in counter and cabinet space. The 12" wood stove and the wall mounted propane heater allows this cabin to remain a place of comfort even in the cold New England winters. The building also comes equipped with a solar panel camping package which allows this cottage to be completely self sufficient.

Hand made in Vermont, from native rough sawn hemlock and pine lumber, this cottage is delivered fully assembled to your prepared site. Rugged post and beam techniques, passed down through the centuries, are used to construct this sturdy picturesque retreat, reminiscent of old New England. Have your own Vermont cabin in the woods!

Furniture is not included.

We also offer this camping cabin in it's stripped down form for those of you who would rather complete the interior of your cottage yourself.

**Plans \$50.00**

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

**Fully Assembled \$35,504**

Cabin will be delivered, fully assembled by our in house delivery crew. Due to road restrictions, the Cabin is only available in Northern New England. Contact our client care team to find out if this rustic retreat can be delivered to your property.
