

16x24 Vermont Cottage - Option B

Call Toll-FREE: 1.866.297.3760

This charming one-room cabin with a loft is a wonderful addition to your backyard as a kid's playhouse, pool house, guesthouse, workshop, cabana, or artist studio retreat. The loft space allows for added storage of seasonal items and/or a sleeping area. With more room and character than a yurt, the building beckons onlookers to investigate, and welcomes individuals to venture within.

Hand made in Vermont, from native rough sawn hemlock and pine lumber, the package includes all fastening hardware, metal roofing, and step-by-step plans necessary for assembly. Rugged post and beam techniques passed down through the centuries are at the foundation of this sturdy, picturesque retreat reminiscent of old New England. Have your own "Vermont cabin in the woods" in your backyard.

The 16x24 Vermont Cottage will be delivered curb side by common carrier. It is recommended to have helpers on hand to unload. The kit is geared for those with beginner carpentry skills, and basic carpentry tools are required. Technical support is provided via our toll-free support line. The cabin kit takes approximately two people forty hours to assemble. Step-by-step plans may be purchased separately as well.

- Included in the Kit:**
- All Fastening Hardware
 - Step-by-Step Plans

Plans \$49.95

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit \$15,599

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. It includes a cut and notched hemlock post and beam frame and pre cut pine siding. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
