

# 4x10 Weekender

Call Toll-Free: (866) 297-3760

A combined wood and equipment shed, the weekender design holds a little under 1 cord of firewood and an enclosed partitioned area has enough storage room for some small hand tools, a garbage can or general storage items. The frame for this little building is a rugged post and beam built with rough sawn hemlock and pine lumber. The Weekender is an attractive and practical building that we originally designed for second home owners enjoying their weekend retreat. A single 2-8 door accesses the enclosed 16 square feet of storage space. The separate compartment and wood storage area both have a heavy 2x6 floor frame that will handle your heaviest storage needs.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.

*Pictures may reflect client upgrades and modifications that do not come standard. Be sure to read the standard written specs below and check out the floor plan on the right for the standard option. Cottage Associates can be reached via phone or email if you have any questions.*

- Included in the kit:**
- \* All Fastening Hardware

### Plans

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

### Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.

### Fully Assembled

Fully assembled from native rough sawn lumber here at our manufacturing facility, this design is delivered to your client prepared, truck accessible site in one piece. The building is set and leveled by our delivery crew and ready to use when we leave your site. Due to road restrictions, fully assembled models are available in the northeastern United States only. Customizable using our Option Pricing on our website.
