

# 4x14 VT Gem

Call Toll-Free: (866) 297-3760

This Cottage Shop creation was designed in response to the numerous requests for a practical and pleasing building for the purpose of fire wood storage and garbage and recyclable containment. Very well proportioned, the little Vermont Gem is featured with a gable overhang and a full partition between the wood storage and the garbage section. There is room enough for a full stacked cord of wood and two large garbage cans.

Hand made in Vermont, from native rough sawn hemlock and pine lumber, all of our wood sheds, storage sheds, outdoor storage sheds, garden sheds, storage shed kits, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. Rugged post and beam techniques, passed down through the centuries, are used to construct this sturdy picturesque Gem. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time and strength.

*Pictures may reflect client upgrades and modifications that do not come standard. Be sure to read the standard written specs below and check out the floor plan on the right for the standard option. Cottage Associates can be reached via phone or email if you have any questions.*

### Plans

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

### Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with basic knowledge of carpentry.
