

6x14 Weston Potting Shed

Call Toll-Free: (866) 297-3760

Set on a hillside in prestigious Weston, Vermont, this unique cottage was a collaboration of design between the Cottage Shop and the client. Built to store tools and use as a workstation within the garden, the shed is filled with shelves and storage space. A generous overhang in front was added for protection on wet days, another feature is the hidden storage space. The beautiful landscaping has added tremendous value and has also attracted a flock of wild turkeys. The curious creatures came to visit the newly constructed structure shortly after completion.

Hand made in Vermont, from native rough sawn hemlock and pine lumber, all of our wood sheds, storage sheds, outdoor storage sheds, garden sheds, storage shed kits, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. Rugged post and beam techniques, passed down through the centuries, are used to construct this sturdy, rustic outbuilding.

Pictures may reflect client upgrades and modifications that do not come standard. Be sure to read the standard written specs below and check out the floor plan on the right for the standard option. Cottage Associates can be reached via phone or email if you have any questions.

- Included in the kit:**
- * All Fastening Hardware
