

12x20 Weekender

Call Toll-Free: (866) 297-3760

A combined wood and equipment shed, the weekender design holds a little under 5 cords of firewood and an enclosed partitioned area has enough storage room for yard toys, furniture and a lawn tractor. The frame for this little building is a rugged post and beam built with rough sawn hemlock and pine lumber. The Weekender is an attractive and practical building that we originally designed for second home owners enjoying their weekend retreat. Large five foot double doors access the enclosed 96 square feet of storage space. The separate compartment and wood storage area both have a heavy 2x6 floor frame that will handle your heaviest storage needs.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.

Included in the kit: • All Fastening Hardware
• Step-by-Step Plans

Upgrade Roof Color

Plans

Jamaica Cottage Shop, Inc. designed these plans for do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut-out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with a basic knowledge of carpentry.
