

4x4 Wishing Well

Call Toll-Free: (866) 297-3760

At an overall height of around eight feet and a diameter of four feet, this is not your typical flimsy backyard decoration, but a crafted piece of art that will surely enhance your landscape and become the topic of conversation. This Cottage Shop original is remembrance of days gone by. Complete with a wooden bucket, the whole unit would actually draw water if there were any below it. The round base sits on pressure treated lumber. The framing and trim is all rough sawn pine and hemlock. The roof is fully trimmed with a fascia and shadow board. The complete structure is covered with western red cedar shingles.

Hand made in Vermont, from native rough sawn hemlock and pine lumber, the pre-cut lumber package includes all fastening hardware, roofing, and step-by-step plans. Rugged post and beam techniques passed down through the centuries are applied to pre cut and notch this kit into a sturdy, picturesque building reminiscent of old New England. Designed for the beginner carpenter, the kit pieces are color coded, part numbered and detailed in an exploded view.

- Included in the kit:**
- * All Fastening Hardware
 - * Step-by-Step Plans

Pictures may reflect client upgrades and modifications that do not come standard. Be sure to read the standard written specs below and check out the floor plan on the right for the standard option. Cottage Associates can be reached via phone or email if you have any questions.

Plans

Jamaica Cottage Shop, Inc. designed these plans for do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut-out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
