

# 5x10 Chicken Coop

Call Toll-Free: (866) 297-3760

This little coop was originally designed as an addition to our chicken complex in order to accommodate our ever growing chicken population. The shed roof design made it easy to butt up against the existing chicken coop, constructing a passage from one to the other. The 3x5 enclosed area provides the chickens with a place to bed down, while the 5x7 open area allows them fresh air and contact with their natural surroundings. This coop was constructed without a floor to allow the chickens to access the natural ground. The coop can be moved around in the yard to give the chickens fresh ground to cover. In the colder months, lining the bottom of the coop with hay will keep your fowl friends comfortable. While nesting boxes do not come standard, they may be purchased as an added option.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.

**Included in the kit:** \* All Fastening Hardware  
\* Step-by-Step Plans

## Specifications:

*Pictures may reflect client upgrades and modifications that do not come*

## Plans

Jamaica Cottage Shop, Inc. designed these plans for do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut-out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

## Complete Kit

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
