

14x20 Sugar Shack

Call Toll-FREE: 1.866.297.3760

A traditional New England design, the sugar shack is still used today to boil maple syrup. This design comes standard as a non-working sugar shack. Meaning the cupola is strictly decorative. If you would like a functional sugar shack you can upgrade to a venting cupola which has opening sides where the steam escapes. In the springtime a large cloud of smoke and steam can be seen rising high above a sugar shack. Whether you intend to use this building as a working sugar shack, simple storage or a work shop, the sugar shack design is an asset to and landscape.

Plans \$50.00

Jamaica Cottage Shop, Inc. engineered the plans for our designs to do-it-yourself homeowners. The detailed plans include foundation options, a shopping list, and a color coded cut list. The trigonometry of the roof triangles has all been simplified with tracing the cut out roof templates. The plans are set for full dimensional lumber and provide a clear step-by-step path.

Complete Kit \$8,474

The rough sawn native Vermont lumber package has all the pieces cut and ready for assembly. The fasteners, hardware, windows, and doors are included as well as the step by step plans. The kit is geared to a do-it-yourself homeowner with beginner knowledge of carpentry.
