

# 6x14 Weston Potting Shed

Call Toll-FREE: 1.866.297.3760

Set on a hillside in prestigious Weston, Vermont, this unique cottage was a collaboration of design between the Cottage Shop and the client. Built to store tools and use as a workstation within the garden, the shed is filled with shelves and storage space. A generous overhang in front was added for protection on wet days, another feature is the hidden storage space. The beautiful landscaping has added tremendous value and has also attracted a flock of wild turkeys. The curious creatures came to visit the newly constructed structure shortly after completion.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.
